How many milliliters of soda are in this package?

We do

A town has 2 water towers that serve its citizens. The tower on the east side of town has 900 kiloliters of water at 8:00 A.M., while the west tower has 300 kiloliters of water.

How many one liter bottles could be filled with the water in these towers?

We do

You do together
on whiteboard

At a water park, this bucket dumps
out 13 kiloliters of water every 30 minutes.

How many LITERS does it dump out in
one HOUR?

You do alone on
index card
