

**Multiplying 2-digit by 2-digit  
with an area model**

$$2 \times 1672$$

$$67 \times 21$$

**Connect**

$$3472 \times 5$$

**I do**

A landscaper gets paid \$72 for a yard he mows for the whole growing season, which is 28 weeks. How much money does he make?

## **We do**

29 4th graders in a class all bring in a dozen donuts for volunteer appreciate week. How many donuts is that?

**You do together  
on whiteboard**

It is 38 miles to downtown Atlanta and back. If a driver drives there and back every day for a 31-day month, how many miles does s he drive? (solve using a **multiplication area model**)

---

**You do alone on  
index card**

In a warehouse, 25 16-inch boxes are stacked on top of each other. How tall is the stack? (solve using a **multiplication area model**)
