

Comparing numbers using place value

Conne

<.>

Compare

4 skittles < 5 skittles

four is less than 5

5 > 4

five is greater than four

I do

In September, the amount of money you could win in the Georgia Lottery was \$2,734,617. The amount of money you could win in the Alabama lottery was \$2,719,899.

Which lottery was worth more money? Compare the values using < or >.

We do

739,795 people live in Alaska. 755,393 people live in North Dakota. Which state has more residents? Compare the numbers using < or >.

**You do together
on whiteboard**

55,641 people live on the island of Samoa. 55,199 people live on North Mariana Island. Which island has more residents? Compare the numbers using < or >.

**You do alone
index card**

**Earth and Venus are called "sister planets."
One reason is that they are similar in size.**

**Earth's radius is about 6,371,000 meters.
Venus' radius is about 6,051,890 meters.**

Which planet is larger? Compare the measurements using < or >
