

Ordering Decimals from Least to Greatest

Connect

Comparing Two Decimals

I do

Gerald rolls 4 different objects down a ramp and measures how many meters they roll from the bottom of the ramp. Here are his measurements:

Marble: 0.8 meters

Toy Car: 0.63 meters

Wooden Cube: 0.09 meters

rubber ball: 0.86 meters

List the objects in order from the shortest roll distance to the longest

.9

.08

We do

Trey and his brothers timed themselves racing from one wall across a room to the other side. Here were their times:

Trey - 3.88 seconds

1st Brother - 3.8 seconds

2nd Brother - 3.08 seconds

3rd Brother - 3.9 seconds

List the brothers from fastest to slowest

**You do together
on whiteboard**

Here are the four fastest 100m freestyle race times at the 2016 Olympics:

47.58 seconds
47.85 seconds
47.88 seconds
47.8 seconds

Order the times from fastest to slowest

**You do alone on
index card**

Here are the 5 fastest 200m dash times ever recorded. Put them in order from fastest to slowest

19.4
19.32
19.26
19.19
