

**What am I supposed to do with these remainders???**

## Connect

A baseball team has 9 people on a team.  
100 people sign up to play. How many  
teams can we make?

**I do**

A baseball team has 9 people on a team.  
100 people sign up to play. How many  
teams can we make?

**Option 1 - make  
an extra, incomplete  
group**

**Option 2 - Leave it out**

**Option 3 - make some of the  
groups a little bigger**

**I do**

A warehouse puts packages of paper into boxes. A box can hold 8 packages, and they have 820 packages. How many boxes will they need.

**Option 1 - make an extra, incomplete group**

**Option 2 - Leave it out**

**Option 3 - make some of the groups a little bigger**

**We do**

I'm setting up a banquet hall that has nine long tables. I have 202 chairs, and want to put them equally at the nine tables. How many will be at each table?

**Option 1 - make an extra, incomplete group**

**Option 2 - Leave it out**

**Option 3 - make some of the groups a little bigger**

**You do together  
on whiteboard**

A grandpa has \$500 that he would like to divide equally among his 6 grandchildren. How many dollars can he give each grand child?

**Option 1 - make an extra, incomplete group**

**Option 2 - Leave it out**

**You do alone on  
index card**

RD Head has 109 5th graders, and 4 teachers. How many students should go in each class?

**Option 3 - make some of the groups a little bigger**
